

Lead Auditor Training for Internal Integrated Management Systems 5 Day Training

What do you need to know?

ISO 19011:2018 provides guidance on auditing management systems, including the principles of auditing, managing an audit programme and conducting management system audits, as well as guidance on the evaluation of competence of individuals involved in the audit process.

PLEASE TAKE NOTE: This course is aimed at making delegates internal auditors and/or lead auditors. You cannot register with a professional body anywhere in the world as an integrated auditor or lead auditor as there is no such standard to verify you against.

Course Objectives

The NEW ISO 19011:2018 is applicable to all organizations that need to conduct internal or external audits of management systems or manage an audit programme. To equip delegates with international guideline knowledge and skill towards becoming an internal auditor or lead auditor within the Integrated SHEQ auditing discipline.

Course Outcomes

At the end of this course you will be able to:

- Define integrated SHEQ/HSE/IMS terminology as per the standards.
- Identify the audit process and protocol as per ISO19011.
- Discuss auditor qualifications/experience as per ISO19011.
- Integrate and learn to Audit on New ISO9001, ISO14001 & ISO45001 Standards
- Generate integrated questions and non-conformances.
- Classify non-conformances under correct clause numbers.
- Compile an integrated report using international protocol.
- Perform an on-site audit to meet the latest standard requirement
- Compile an integrated non-conformance matrix.

Course Details
