

COURSE DESCRIPTION

ISO 19011:2018 provides guidance on auditing management systems, including the principles of auditing, managing an audit programme and conducting management system audits, as well as guidance on the evaluation of competence of individuals involved in the audit process.

The **ISO 19011:2018** applies to all organizations that need to conduct internal or external audits of management systems or manage an audit programme. To equip delegates with international guideline knowledge and skills towards becoming an internal auditor or lead auditor within the Integrated SHEQ auditing discipline.

COURSE OBJECTIVE

By the end of the course, the learner will be able to:

- Define integrated SHEQ / HSE / IMS terminology as per the standards.
- Identify the audit process and protocol.
- Discuss auditor qualifications/experience.
- Integrate and learn to Audit on the ISO 9001, ISO 14001 & ISO 45001 Standards
- Generate integrated questions and non-conformances.
- Classify non-conformances under correct clause numbers.
- Compile an integrated report using international protocol.
- Perform an on-site audit to meet the latest standard requirement
- Compile an integrated non-conformance matrix.

WHAT YOU'LL LEARN

- What it takes to be a management system auditor.
- How management system audits are performed.
- What you should know in order to build a career in auditing.
