

COURSE DESCRIPTION

iSTEC recognises the interdependence of the NEW ISO standards and the need to avoid unnecessary duplication between Management Systems. Even if you do not know the SHEQ ISO standards you can use this course as a foundation to gain a holistic understanding. Five international standards in five days:

Day One:

ISO 31000:2018

Application of Risk Management.

Day Two:

ISO 45001:2018

Occupational Health & Safety Management Systems.

Day Three:

ISO 9001:2015

Quality Management Systems.

Day Four:

ISO 14001:2015

Environmental Management Systems.

Day Five:

ISO 19011:2018

Guidelines for Auditing Management Systems.

COURSE OBJECTIVE

At the end of this course with the use of the ISO relevant documentation you will be able to:

- Understand the principles and mechanisms for the integration of Safety, Health, Environmental, Risk & Quality Management Systems.
- Appreciate the importance of the legislative and regulatory requirements for the business in structuring an integrated approach. Understand the new “HLS” (high-level structure)
- Prepare, implement, report and track internal audits of management systems in an integrated manner. Avoid failure during the transition period.
- Contribute to the development, improvement and integration of your organization’s management system. Understand Risk & Opportunity new requirements for all standards.
